On Sunday night a young man named Jenns, belonging to Company of the Regiment, met with a lamentable and sudden death. He was walking down to barracks from the saustorium, and just before reaching the second bridge past Wanchai Gap, deceived by the shadows cast by the moonlight on the narrow road, he walked over the steep precipice at that place and fell to the bottom. A sergeant walking along the road noticed the body at the foot of the hollow and immediately got assistance. When the poor fellow was reached he was quite dead, it is supposed from rupture of the heart. The body was buried yesterday afternoon, the whole of the officers and men of C Company being in attendance. The service at the grave was conducted by the Rev. · 27th August, The late heavy rains of this province have done considerable damage. The farmers were first troubled by a lack of rais, then along the late Yellow River by clouds of sand, and now last of all they find the rain too great. By these various causes the crops are worse than in pre-

vious years. We have also learned that in the city of Weihaien, through which passes a creek, about one hundred persons were drowned.

We have to record that the American physician from here has been called to the mines of P'ing-tu, where an explosion occurred in the works, and several persons were injured. The injured are reported to be improving.

There have been a few changes among the officials here. The salt Commissioner, Pan Ch'uin-sni, has retired from poor health. He gained his first reputation as a physician in Peking, and through his wonderful success he was made a Taotai in Kwang tung, and from there was advanced to the post here. His office is sight. temporarily filled by the late Prefect, Mei On Paris.— Ch'i-hsi. The Prefect's post is now filled by Liu Ching-chen, an expectant of office of the rank of Prefect.

Wounderstand that two of the high officials have been somewhat troubled by a little degradation, vis., the Governor, Chang Yao, and the Acting On BOMBAY .-Treasurer, Tin Jun. Owing to certain mistakes in the military records of the province, the Board of Revenue memorialised the Throne, and the Or CALOUTTA .-Governor was to be lowered two degrees while the Treasurer was to be degraded. Probably the matter will be explained away by the usual On Shanghal. methods. It is rather hard for the Treasurer. who has been acting in that capacity for only about a month. The Treasurer really implicated had already retired from ill-health. At Ki-chow, Shunt'ien Fu (the Peking Prefecture), a pa-jung (military officer) has committed suicide in the Magistrate's Yamen by eating | Luzon Sugar Refining Company, Limited-\$69 opium under the following curious circumstances. He was very fond of gambling and of gambling-kouses, and some gambling-shop keepers, cronies of his, being screeted, he sent Hongkong and China Bakery Company, Limited MONOPOLE RED SEAL (medium dry). a man with his card to ask for grace for them. The Magistrate very properly would not consent to this and as he was engaged in trying them for their offence, in rushed the officer with some soldiers, forcibly released the gamblers, and smashed up the judicial table at which the Perak Sugar Cultivation Company-Tls. 18 per official was sitting. The Magistrate wrote to General Ms Lan-chen, and the General cashiered his subordinate, who, in his shame and grief, and fear for the future, sought death as a refuge from the position his love of gambling had brought him into. The Magistrate reported the Hongkong & Kowloon Wharf and Godown Co., case to the Governor of the Imperial Prefecture (Fu-yin) who commenced by removing the Magistrate, in his turn, from his post, and deputed the Tung-Yang Taotai, Hu, to send him a full report of the circumstances of this ourious

The sailing craft of foreign build plying between Hankow and Shanghai all anchor at Chinese Imperial Loan, 1886 E-11 per cent. Hankow between Tsing-ch'wan Low and Nanngan Teni. On 25th August one was just getting up anchor when a government ferry boat crowded with passengers ran full sail into her. Six sailors from the foreign-built heat fell into the water and three were drowned. The men in charge of the colliding boat have been sent to the Hanyang Magistrate for trial.-Shen-pao.

Westerners are good at scientific inventions. One of the latest is a method of repelling mosquitoes. A little camphor is placed in a metal pan, under which a gentle fire is lighted, and the fumes rising soon make the house clear of mosquitoes, who do not venture to return for a long time, so much do they, like all insects, hate the

edour of campior. The prisoner Ho Tai-jung, who was treated by the Shanghai Magistrato with such severity for making a disturbance in the prison on two occasions,—on the last of which he was confined in a wooden cage,—is now reported by the gaslers as in a very bad way, and likely to die soon; which has been reported by the magistrate to

the superior authorities. A letter from Peking says the Seventh Prince will this winter make a tour along the northern. coasts in a man-of-war, inspecting the forts and batteries already existing, and deciding on the points where it will be advisable to erect new ones. Large guns will be bought for these, and

the coast garrisons improved and enlarged. The Shen-pao, in a leading article, states that in one year the sum of nine million taels has been spent on the Yellow River engineering works, and more than one million taels contributed voluntarily for the relief of the inhabitants of the inundated country.

On 6th September an opium smoker's hospital was opened in the Ping-kang Li, Shanghai, principally through the exertions of a benevolent Cantonese gentleman. About 20 people entered their names in the books as out-patients on this first day. The system pursued is the gradual cure, and the patients are recommended to go on smoking gradually decreasing doses, receiving medicines in proportion to the strength of the Wiostook ... | 29.59 | 63 yin, or oraving, to be overcome. The Austrian Admiral and Mr. Haas enter-

tained the Mixed Court Magistrate on the Aus-

trian man-of-war at tiffin the other day, and afterwards the Mixed Court Magistrate kindly Bolingo 29,98 obtained from the military authorities some match-locks, shields, bows and arrows as used in China by troops armed in the old style. Photographs of these were taken and will be sent to Vienna for the inspection of the Emperor. In men-of-war and armam-nts China copies the Western nations instead of serving as their model, and so it cannot be as patterns for imitation that Consul Hass wanted these weapons. In Burmah between Ming-lung and Teng-kao (Tongo?) an insurgent chief has a following of 300 men, and has three stockades on the Mei-chi River, one of which the British troops were preparing to attack. We thus see that that country is not yet completely pacified under the new British rule.

NOW ON BALE. IMPERIAL QUARTO. ENGLISH AND CHINESE DICTIONARY. WITH THE PUNTI AND MANDARIN PRONUNCIATION.

An Angle-Chinese Dictionary, published at the Daily Press Office, Hongkong. For comprehensiveness and practical service this Work stands unrivalled, All the new Butman, Master, shortly expected here, will load words which the Chinese have of late years been here, for the above Port, and will have a quick compelled to coin to express the numerous objects in machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them, are 1436 here given in extenso. Each and every word is fully illustrated and explained, forming exercises for students of a most instructive nature. Both the Court and Punti pronunciations are given the accents being carefully marked on the best principle hitherto attained. The typography displays the success of an attempt to make the Chinese and English type correspond in the size of body, thereby effecting a vast economy of space, achieving a clearness not previously attained, and dispensing with those vast margins and vacant spaces which have heretofore charac-

- tarized Chinese publications. To illustrate the vast scope of the work the following facts are submitted for consideration: Chalmers' Vocabulary contains about 16,000 Chinese characters, and Medhurst's English and Chinese Dictionary about 100,000, whilst this work contains more than 50,000 English words, and upwards of 600,000 Chinese characters. Again, despite all the grammars and other elementary works as yet published, the student of this difficult language absolutely requires examples to display the various applications and equivalents of different words which have one general meaning. Of these examples this work contains more than five times as many as any other Dictionary hitherto pub-

For practical purposes the arrangement of the work is so complete, that a reference to its pages enables a person who understands English o communicate effectively with natives who understand nothing but Chinese. In this respect the work will be found indispensable to all Europeans residing in China, and to the natives themselves it explains subjects fully with which very few indeed of them are perfectly acquainted. To parties resident in England and interested in China it cannot but be invaluable occasion-

It comprises upwards of two thousand large 4 Vols. IMPERIAL QUARTO, Price, \$20. A Large REDUCTION in PRICE is made
